URGENT NOTICE TO ALL RESIDENTS

Ref: N190

25 May 2017

Dear Resident/Owner

Re: PET CRUELTY ON THE ESTATE

We have been requested by the Board of Trustees of Dune Ridge Estate Home Owners Association to inform urgently you of the following:

There has been a recent very serious incident on the Estate where an autopsy was performed on a cat that died, and it was determined that the cat had been shot by an air rifle and the pellet was lodged in the shoulder. The vet could not determine when the cat was shot and assumed the pellet must have been there for some time.

This is the second incident that the owners have experienced in four months with their cats being shot.

The Trustees hereby inform all owners that the discharging of any weapon on the Estate is highly illegal and this includes a firearm, air-gun or paintball gun. Not only will criminal charges be laid against the culprit but the Estate will impose a fine of R5000-00 as the cruelty to animals will not be tolerated on the Estate.

The Trustees thank you for your co-operation in this matter.

Yours sincerely

Yvonne Green
