DUNE RIDGE ESTATE – WATER UPDATE

Ref: N209

5 February 2018

Dear Resident/Owner

RE : WATER UPDATE FOR THE ESTATE

The City of Cape Town Local Government, is appealing to all Cape Town Residents to adopt escalating water restrictions which have been implemented, as Day Zero fast approaches.

The Estate thanks residents for all their individual efforts to manage their own individual homes and appeal to all to continue to make every effort as the drought crisis worsens.

We are in the process of investigating options to assist residents from a communal perspective. The current processes are:

1. Investigate actual flow rate from the current borehole
2. Testing the quality of the borehole water
3. Investigating the option of 1- 2 more boreholes on the Estate and the water that can be provided
4. Increasing storage capacity by adding more holding tanks and looking at alternative ways to fill them
5. Research the process of smooth distribution to households and the recovery of costs incurred.

If you are willing/able to assist the trustees with your time/and or expertise, a Water Subcommittee will be formed to manage the project on the Estate. Please email

info@capeclass.co.za if you are interested. Please also indicate if you are considering drilling a borehole. A bulk discounted rate can possibly be negotiated with a service provider.

Yours sincerely

Yvonne Green
